

Annual Report 2004 : US Western Region

First, I would like to send my best wishes to all my friends and colleagues from around the world, who are fortunate enough to have made it to Stockholm.

While enrolment remains fairly stable in the US Western region, we still have a problem in finding sponsors and attendees for the regional conference on an annual basis.

1. The budget cuts in several of the Universities, which are potential sponsors, has stymied the prospects of an annual regional conference.
2. I would therefore request potential collaboration with other regional chapters to run a common conference – I could offer to make the arrangements for a conference in Phoenix, even on Thunderbird campus.

Hope to meet with you all next year.

Best regards,

“Ram” Sundaresan Ram
